

The Perfection Game protocol supports you in your desire to aggregate the best ideas. Use it whenever you desire to improve something you've created.

“Will you perfect...?”

1 Rate on a scale of 1 to 10, based on how much value you can add

“What I like about it...”
List the qualities you liked **2**

3 “To make it perfect...”
Offer the actionable improvements for it to be rated a 10

commitments

- Accept perfecting without argument
- Give only positive comments: what you like and what it would take to “give it a 10”
- Abstain from mentioning what you don't like or being negative in other ways
- Withhold points only if you can think of improvements, if you can't specifically say how to make it better, you must give 10
- Use ratings that reflect a scale of improvement rather than a scale of how much you liked it

I give a out of 10
